

GABRIEL HENRIQUE DE SALLES

Curitiba, PR – Brazil | +55 (21) 98387-6662 | ogabrielsalles@gmail.com | [linkedin.com/in/gabrielhsalles](https://www.linkedin.com/in/gabrielhsalles)

PROGRAM MANAGER | TECHNICAL PROGRAM MANAGER

Technical Program Manager with 15+ years of experience in telecommunications and network infrastructure, coordinating complex technical initiatives in high-availability, mission-critical environments. Strong track record supporting cross-functional teams (engineering, operations, and vendors) through SLA recovery, critical-incident stabilization, and delivery lifecycle management across multi-vendor ecosystems. Solid technical foundation in IP routing, DWDM, NSO automation, and collaboration platforms. Advanced English for technical and executive communication. Open to relocation across Europe, APAC, and Australia — EU Blue Card / visa sponsorship.

CORE COMPETENCIES

- **Technical Program Coordination:** Cross-functional coordination across engineering, operations, and vendor teams in mission-critical environments.
- **Network Architecture & Infrastructure:** IP backbone routing (BGP, OSPF, EIGRP) and DWDM optical transport; collaboration platforms (Cisco UCCE); automation and orchestration (NSO, YANG, NETCONF/RESTCONF).
- **SLA Governance & Incident Management:** Structured critical-incident coordination, escalation support, and SLA compliance tracking.
- **Stakeholder Communication & Reporting:** Technical and executive reporting, translating status updates into information stakeholders can act on.
- **Delivery Frameworks:** Agile/Scrum (PSM) and ITIL Foundations.
- **Languages:** Portuguese — Native | English — Advanced.

PROFESSIONAL EXPERIENCE

Cisco Systems

High Touch Engineer (HTE), Collaboration / NSO / BBIP / DWDM | 2020 – 2026 | Curitiba, Brazil

- **Program Coordination:** Coordination of a client-facing technical program spanning IP backbone routing, DWDM optical transport, NSO-based automation, and collaboration platforms — working closely with Cisco engineering, third-party vendors, and client operations.
- **SLA Governance:** Contribution to a structured SLA governance framework (escalation tiers, root-cause tracking, recurring-failure review) that helped replace ad hoc firefighting with a more predictable operations rhythm.
- **Backbone Stability:** Coordination of backbone stability initiatives across core routing domains (BGP, OSPF, EIGRP), translating engineering risk into business-readable updates for client leadership.
- **Automation Support:** Facilitation and validation of NSO-based automation workflows (YANG, NETCONF/RESTCONF) across a multi-vendor environment, supporting standardized provisioning.
- **Optical Transport Monitoring:** Monitoring of optical transport (DWDM) health, supporting a proactive maintenance and risk-review cadence to protect business continuity for the client's core network.

- **UCCE Platform Upgrade:** Technical and managerial contribution to a large-scale Cisco UCCE (contact center / collaboration) platform upgrade for TIM Brasil, working alongside engineering and program teams to roll out the change without disrupting live operations.
- **Status Reporting:** Preparation and delivery of recurring status reports for client stakeholders, translating technical updates into actionable information.

Resident Engineer, PCRF Program | 2019 – 2020 | Rio de Janeiro, Brazil — Client: TIM

- **Client Interface:** Primary point of contact between TIM and Cisco engineering for PCRF/EPC core network evolution, supporting escalations end-to-end and keeping timelines aligned.
- **QoS & EPC Coordination:** Coordination of QoS policy troubleshooting, charging rules, and Diameter-based EPC integrations, supporting the client's core network modernization roadmap.
- **Release Support:** Support for the release calendar of upgrades and production changes, helping sequence work to protect uptime on a live mobile core network.
- **SLA Monitoring:** Monitoring of SLA adherence and delivery of technical reporting used in client steering-committee updates.

Quality Projects Manager / Quality Engineer | 2018 | Rio de Janeiro, Brazil

- **Test Coordination:** Coordination of functional, regression, and integration test cycles for a PCRF platform evolution program, sequencing test phases against release milestones.
- **Patch Validation Management:** Management of the patch validation lifecycle and production-readiness approvals, supporting the final review gate before changes reached a live carrier network.
- **Workflow Optimization:** Contribution to validation workflow improvements that reduced execution time between test cycles.

Rio 2016 Olympic Organizing Committee

Technology Manager | 2016 | Rio de Janeiro, Brazil

- **Operations Coordination:** Coordination of IT operations for a fixed-deadline, globally-televised event with zero tolerance for downtime.
- **SLA & Incident Monitoring:** Monitoring of SLAs, schedules, and critical-incident prioritization across the technology operations center during Games time.
- **Stakeholder Alignment:** Alignment of technical and non-technical stakeholders from multiple countries and vendors to support operational continuity.

Sonda IT

Project Manager | 2012 – 2013 | Rio de Janeiro, Brazil — Clients: VALE, Oi

- **Infrastructure Program Management:** Management of infrastructure programs for large enterprise clients (VALE and Oi), covering scope, timeline, and SLA performance across concurrent workstreams.
- **Executive Reporting:** Delivery of executive reporting on scope, timeline, and SLA performance to keep client sponsors informed throughout the engagement.

Accenture

Senior Systems Analyst (Project Leader) | 2005 – 2012 | Rio de Janeiro, Brazil

- **Project Leadership:** Leadership of medium- and long-term technical projects through production deployment, coordinating internal teams and external vendors.
- **Vendor & UAT Coordination:** Coordination of vendors, schedules, and UAT programs, supporting delivery quality and lifecycle governance.

EDUCATION

- Postgraduate in Network and Telecommunications Engineering — PUC-PR (Expected 2026)
- MBA in Project Management — UNESA (2018)
- Bachelor's in Social Communication — UVA (2010)

CERTIFICATIONS

- Professional Scrum Master (PSM) — Scrum.org
- Agile Scrum Foundation — Exin

TECHNICAL FLUENCY

BGP, OSPF, EIGRP | DWDM & Optical Transport | NSO, YANG, NETCONF, RESTCONF | PCRF, EPC, Diameter | UCCE/IPCC, SIP, RTP, QoS
